Binance Earn offers 2 types of earnings - Guaranteed and High Yield. Users can choose to invest their crypto in stablecoins for predictable returns, or high-yield staking coins that provide higher than average gains but with corresponding risks to your invested principal.

Just go to your wallet where you have the cryptocurrency put away, select the amount you need to move, and send those assets to your substantial Binance account. The most awesome aspect of exchanging with computerized monetary standards is that everything occurs in a moment.
