Swing Trading Strategies using our signals: Our Swing Signals can be used for swing trading over days or weeks, short term trading or even as a source of ideas for day trading. Initiate a trade with one of our Buy signals and close out the trade with one of our Sell signals. We do not recommend shorting a stock based on one of our Sell signals. Note that swing trading tends to have the typical risks associated with most short term trading approaches.

Initial coin offerings, also referred to as ICOs or token sales, are a way to fund cryptocurrency projects. An initial coin offering is used by startups to bypass the rigorous and regulated capital-raising process required by venture capitalists or banks. In an ICO campaign, a percentage of the cryptocurrency is sold to early backers

of the project in exchange for legal tender or other cryptocurrencies, but usually for Bitcoin.

Trading Signals in MetaTrader 4 allow you to automatically copy the deals performed by other traders in real time. Many successful traders provide their Forex trades in public access either for free or for a reasonable fee, becoming signal providers.

Sandbox A public sandbox is available for testing API connectivity and web trading. While the sandbox only hosts a subset of the production order books, all of the exchange functionality is available. Additionally, in this environment you are allowed to add unlimited fake funds for testing. Login sessions and API keys are separate from production.

Pre ICO token sale is somewhat a newer phenomenon in the cryptocurrency world. From the word itself, pre-ICO gives investors the ability to buy tokens before the official crowdsale begins. Usually, the pre-ICOs raises a much lesser amount of fund and it also offer tokens at a lower price with an essential bonus.

Founded by Ryan Selkis in 2018, Messari is an online database for the crypto industry that provides data insights, pricing, and research on crypto-assets through an open-source library of information.

Most investors find that timing the market, which is trying to determine whether to be invested or not, is not something that is within reach. My experience tells me that not only is it possible, but it is also very important in these volatile times. The market can be illustrated by looking at the performance
