China's Coin YuanPay Group is the national cryptocurrency of China in 2022 After a lot of hard work by very talented individuals and close work with the Chinese Government, the currency is now ready for distribution! As of January 1, 2022, anyone can trade China's new Digital Yuan cryptocurrency coin.

An API Key can be considered as a username. This is generated by the exchange once you declare your settings. An API Secret or API Private Key is simply another string of characters that must be used in combination with the API Key to establish the connection. An additional security layer can be added by generating an API Passphrase. While the API Key and Secret are generated by the exchange, the Passphrase is commonly generated by the user.
